

## Black Bear

### Fun Fact :

Black bears are excellent tree climbers and often sleep high up in trees, especially when they're young. Their strong claws and curved limbs make them agile climbers despite their size!

Print on Cardstock

Laminate

## Black Bear

### Clue #3

Find the Krebscreek Outdoors article that mentions the Quashnet River.

Next, find the sub-section on the steam mentioned just above the sub-section on the Quashnet River.

The second word in the name of that stream is the next keyword.
